

## HERE WE GO AGAIN (from page 26)

As we were moving, there was action on the surface that had attracted a lot of gulls, so we moved in to try casting a surface plug, but after several casts we didn't raise any fish so we went back to our original destination.

After we settled in at our new location, things got interesting. You know how on every trip there's always one who has to show the others up with his fishing prowess? Ours was a "sleeper" who came to life

**Bob and John enjoy the ride to the next location**

when we arrived at this new spot. Any angler will confirm that it's easy to get caught on rocks and many have done so hundreds of times. The hard part is landing them. Well, John showed us all that he can land them. I wouldn't believe it except that I was sitting right next to him. Typical to what we were catching, it was a short (a stone) so John had to put it back. So, if you see John Davenport at one of the meetings, ask him if he's been stoned lately.

Right after that another 18" fluke was caught along with a small sea bass, but it was getting time to get back to the dock.

We arrived at the marina at 4:00 PM, after 5 hours of fishing. We caught over a half dozen fluke with three on them being over 18 inches, but just short of 19 inches. We also caught a bunch of black sea bass with four being legal size.

Captain Al did all that he could to make the trip enjoyable and he succeeded. It was a beautiful day with 4 sea bass to eat and great company to enjoy the trip with. We really enjoyed our time with Captain Al and greatly appreciated that he provided this trip, and even better, we won the opportunity to take part in it.

Thank you very much Captain Al Passerelli for the wonderful fishing trip. The sea bass was great eating.
