

Rhode Island Saltwater Anglers Association

Member News

by Lynn Medeiros

The purpose of this column is to pass along information and milestones within the membership. Birthdays, anniversaries, events or get-well wishes are all in order. We also let members know of the passing of other members.

GET WELL

Member **JOAN BRADBURY**, while on vacation in North Carolina with friends last month, was injured after a fall. She was rushed to a nearby hospital for treatment of several cuts and bruises, a chipped tooth and stitches in her lower lip. After several days of rest she was able to return home. We wish you well, Joan.

GET WELL

Member **DAN KING** underwent neck fusion surgery on November 3. He took this step after a year of physical therapy and shots that didn't cure his shoulder pain and weakness, and kept him "from enjoying his favorite activities" of fishing line dancing and archery. We wish you well Dan, and we'll be sure to see you on the water next spring.

NEWEST JUNIOR MEMBERS

are twins **Amelia Jean** and **Benjamin Brian** Beltrami who were born on November 6, 2017. Their proud grandfather **BRIAN BELTRAMI** quickly signed them up as RISAA Junior Members. They are Brian's 5th & 6th grandchildren he has signed up.

GET WELL

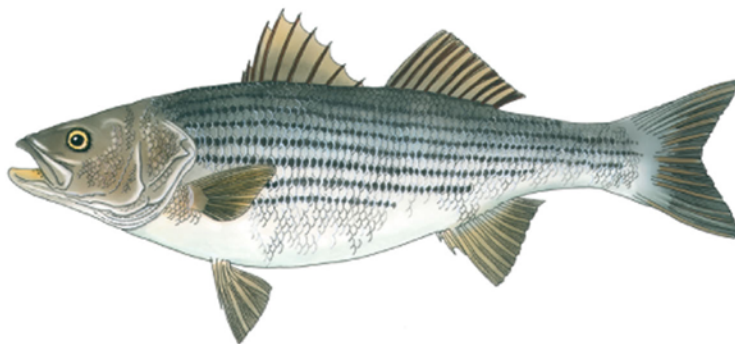

Member **RICH GOLEMBESKI**, underwent hand surgery last month to fix a bad case of trigger finger. Gisele said the surgery went well. Rich will have to be out of work at least 4-6 weeks during recovery. Fortunately the fishing season is over. Wish you a speedy recovery Rich.
